Published: 22 March 2018

In the above-referenced article, the value of the coefficient \( \alpha \) in Table 1 footnote j is incorrect. It should be \( \alpha = 6.5 \times 10^{-2} \text{ m}^3 \text{ STP} \text{ µg}^{-1} \), rather than \( 5.2 \times 10^{-2} \text{ m}^3 \text{ STP} \text{ µg}^{-1} \). The coefficient was adjusted prior to submission of the article upon introduction of new oxidation rate coefficients from Jiao and Dibble (2017), but it was mistakenly not changed in the text.

**Acknowledgements.** We thank Hélène Angot, Colin Pike-Thackray, and Noelle Selin for their efforts in discovering and correcting this error.
