Simulation	Description
SR1	Base case (see Sect. 2.1 for details).
SR6EA	SR1 but with anthropogenic emissions of all O_3 precursors ($NO_x + CO + NMVOC$) and aerosols within EA decreased by 20 %.
SR6EU	SR1 but with 20 % emissions reductions within the EU region
SR6NA	SR1 but with 20 % emissions reductions within the NA region.
COfromEA	Idealized tracer simulation in which all models use identical CO emissions, emitted within the EA region, with a 50-day e-folding lifetime.
COfromEU	Same as COfromEA but for the EU region.
COfromNA	Same as COfromEA but for the NA region.
